MAKING CONNECTIONS ACROSS THE RESEARCH SPECTRUM—
FROM CELLS TO CLINICS TO COMMUNITIES—TO TRANSFORM HEALTH

RESEARCH CONTINUITY PLANNING FOR CORONAVIRUS (COVID19)

With COVID-19 spreading throughout Utah and our university community, now is the time to review and implement new plans and procedures. The Research Continuity Planning for Coronavirus (COVID-19) page from the Vice President for Research has guidance for many areas and is updated frequently.

LACK OF INFORMATION IMPEDES ACCESS TO FOOD PROGRAMS

Utahns who have difficulty keeping their families fed could be missing a key ingredient: information. A new study finds that poor communications could hamper efforts to connect those in need with food stamps, food banks, soup kitchens and other food resources.

BROAD-SPECTRUM ANTIBIOTICS NO BETTER THAN STANDARD CARE IN TREATING PNEUMONIA

Doctors who use drugs that target antibiotic-resistant bacteria as a first-line defense against pneumonia should probably reconsider this approach, according to a study of more than 88,000 veterans hospitalized with the disease.
