

CENTER FOR GENOMIC MEDICINE
presents

“Engaging Participants as Partners in NIH’s *All of Us* Research Program”

Louisa A. Stark, PhD

*Professor, Human Genetics
Adjunct Professor, Population Health Sciences
Director, Genetic Science Learning Center
Associate Director, Utah Center for Clinical and Translational Science
Director, CCTS Community Collaboration and Engagement Team*

The NIH’s [All of Us](#) research program is a historic effort to engage one million diverse people as partners in an open-access biomedical research database. In 2019, Dr. Louisa Stark and her team at the Genetic Science Learning Center were awarded a [large NIH grant](#) to lead the development of engagement materials and methods for participants and providers. During this webinar, Dr. Stark will provide an overview of the *All of Us* program, the data resources that will be available to researchers, and the aims of her award. She also will provide an update on her team’s progress to date and their plans ahead.

**WEDNESDAY, APRIL 29, 2020
3-4 PM**
